

WATER SCIENCE AND SUSTAINABILITY, MINOR

This minor covers issues of water sustainability, water scarcity, and water quality, which are topics of utmost importance to address challenges posed by global population increases, climate change, and human activities.

Code and Title	Hours
Required Courses:	
GEO 103 Introduction to Oceanography	4
GEO 105 Sustainable Earth	4
GEO 305 Fundamentals of Water Science	3
Electives:	6
GEO 306 Hydrogeology	
GEO 405 Introductory Biogeochemistry	
GEO 410 Soil & Groundwater Restoration	
GEO 450 Geostatistics	
GEO 455 Marine Science	
GEO 470 Introduction to Geochemistry	
GEO 476 Environ Field and Lab Methods	
GY 477 Water Resources Management	
Total Hours	17
