

ECONOMICS, BS

Students interested in studying economics should be able to think analytically, be creative in solving problems, and have a strong interest in overall business strategy and/or economic and public policy. Economics is also a good major for pre-law students, as well as students desiring to pursue a Master of Business Administration, a Master of Public Administration, or an advanced degree in economics, public policy, finance, or other areas of business.

The University's economics program offers an extensive array of courses to develop the student's analytical abilities and prepare graduates for rewarding careers in business, industry and government. Economics also provides a sound foundation for postgraduate study in a variety of fields. The department offers a major in economics through both the Culverhouse College of Business and the College of Arts and Sciences. Students majoring in other fields in Culverhouse may select economics as a non-business minor. Students majoring or minoring in economics are urged to consult an undergraduate advisor for recommendation of 400-level economics courses and general electives consistent with their career goals and objectives.

Economics majors must complete the core Computer Language requirement by taking FI 389 Financial Analysis & Modeling. Economics majors are required to select a concentration, a second major, or an approved (business or non-business) minor.

Code and Title	Hours
Major Courses	
EC 308 or Intermediate Microeconomics (C- or better required in EC 308 or EC 310)	3
EC 310 Honors Intermediate Microecon	
EC 309 or Intermediate Macroeconomics (C- or better is required in EC 309 or EC 311)	3
EC 311 Honors Intermediate Macroecon	
FI 301 Intro Financial Inst. & Mkts	3
Additional EC Courses ¹	9
Credit Hours Subtotal:	18
Concentration	
Concentration, Second Major or Approved Minor	9-18
Total Hours	27-36

Footnotes

¹ EC 400 Analysis Econ Cond Micro/Macro and EC 492 Internship cannot be counted toward the major; EC 470EC 470 Intro Mathematical Economics is strongly recommended for those considering graduate work on economics or business.

Concentrations

Econometrics connects many academic disciplines such as mathematics, statistics, economics, finance, and business studies, and is primarily concerned with the science and art of using economics theory and statistical techniques to analyze economic data. The Econometrics and Quantitative Economics concentration provides students with quantitative economics reasoning and prepares them for analytical positions in industry and government, as well as to enter a graduate program of studies. Students will learn how to use econometrics methods to understand consumer behavior, markets, and industries. In addition, students will learn how to use game theory and experimental methods commonly used in psychology to understand

individual and interactive decision making. The Econometrics and Quantitative Economics concentration is restricted to Economics majors only.

Econometrics and Quantitative Economics Concentration		Hours
Required:		
EC 471	Econometrics	3
Choose 2 courses from the following list:		6
EC 413	Econ Forecasting & Analysis	
EC 414	Behavioral Economics	
EC 415	Sports Economics	
EC 470	Intro Mathematical Economics	
EC 472	Financial Econometrics	
EC 473	Games and Decisions	
EC 474	Experimental Economics	
Total Hours		9

The Economic Policy concentration provides students with a broad set of competencies and a broad range of applications of economics theory, with a focus on evaluating economic policies and measuring the success or failure of government programs. Students can choose courses that will help explore various areas including law, trade, competition, monetary, environment, healthcare, labor, and development. Students will be prepared for careers in industry and government, as well as graduate studies in law, business, and public policy. The Economic Policy concentration is restricted to Economics majors only.

Economic Policy Concentration		Hours
Required:		
Choose 3 courses from the following list:		9
EC 410	Law And Economics

EC 432	Development Economics	
EC 460	Labor Economics	
EC 480	Econ of Environment	
EC 483	Health Care Economics	
Total Hours		9

Finance/Economics Double Major

The double major in finance and economics is for students looking to combine the two fields. The double major includes a Finance elective and an additional Economics elective, because of the extensive overlap between the Finance and Economics majors. Students completing this curriculum earn two majors, not two degrees, since both are part of Culverhouse College of Business.

Please click [here](#) and scroll down to the bottom of the page for the list of courses required for the double major.

The opportunities for students who complete a bachelor's degree in economics range from positions in banking and financial services to real estate, insurance, enterprise risk management, consulting, and the public sector. The economics major also provides excellent preparation for admission to law school, MBA programs, schools of public policy, and doctoral programs in economics, finance, or other areas of business.
